Program Description

Welcome to the Boston Bowel Preparation Scale On-line Educational Program. During this program, you will learn the rationale for development of the Boston Bowel preparation Scale, understand and be able to explain how the scale is used, and be able to use the scale in your everyday clinical practice and research endeavors. This program is composed of two main components. There will be an instructional component that explains the Boston Bowel Preparation Scale followed by a knowledge assessment component, in which you will use the Boston Bowel Preparation Scale during four test cases. The entire program is estimated to take 15 to 20 minutes to complete.
